

# PUBLIC NOTICE

## Mbabane Water Supply Schedule

Eswatini Water Services Corporation (EWSC) would like to inform its valued customers and members of the public in the Mbabane areas listed in the schedule below of continued water supply interruptions. This is due to the flooding of our abstraction sites caused by cyclone Eloise which resulted in extensive damage to the raw water infrastructure. Consequently a rationing programme will be implemented to promote equitable access to water services. Areas affected are those supplied by the Upper Fonteyn and Mahwalala Reservoirs.

Alternative supply through stationery tanks and a mobile tanker will be provided during the periods when supply is not available.

Water will be available in the affected areas at the times listed below. Normal Supply is expected to be restored on the 28th of February 2021.

EWSC is working around the clock to restore normal supply, though works are delayed by the continuing rains.

Any inconvenience caused is deeply regretted.

Rationing schedule to be read per day	<b>EWSC WATER SUPPLY SCHEDULE - MBABANE</b>
