In that event, the PE may award the Contract to the next best ranked Contractor whose Tender was evaluated at the financial comparison stage.

43.3 Effectiveness of the contract shall be subject to submission of a satisfactory performance security where applicable and any other conditions specified in the Contract.

43.4 A contract shall not be entered into by the Controlling Officer with a Contractor during the period of administrative review.

46. Procurement Related Complaints and Administrative Review

46.1 The procedures for making a Procurement-related Complaint are as specified in the TDS

47. Abnormally Low and Abnormally High Prices

47.1 Abnormally Low Prices

47.1.1 An Abnormally Low Price is one where the financial price, in combination with other constituent elements of the Tender, appears unreasonably low to the extent that the price raises material concerns with the Procuring Entity as to the capability of the Contractor to perform the Contract for the offered price.

47.1.2 In the event of identification of a potentially Abnormally Low Price by the evaluation committee, the Procuring Entity shall seek written clarification from the firm, including a detailed price analysis of its price in relation to the subject matter of the contract, scope, delivery schedule, allocation of risks and responsibilities and any other requirements of the Tendering document.

47.1.3 After evaluation of the price analyses, if the Procuring Entity determines that the firm has failed to demonstrate its capability to perform the contract for the offered price, the Procuring Entity shall reject the firm's Tender.

47.2 Abnormally High Prices

47.2.1 An abnormally high price is one where the proposal price, in combination with other constituent elements of the Tender, appears unreasonably too high to the extent that the Procuring Entity is concerned that it (the Procuring Entity) may not be getting value for money or it may be paying too high a price for the contract compared with market prices or that genuine competition between the Contractors is compromised.

47.2.2 In case of an abnormally high tender price, the Procuring Entity shall make a survey of the market prices, check if the estimated cost of the contract is correct and review the Tendering Document to check if the specifications, scope of work and conditions of contract are contributory to the abnormally high proposals. The Procuring Entity may also seek written clarification from the Contractor on the reason or the high Tender price. The Procuring Entity shall proceed as follows:

- i) If the Tender price is abnormally high based on wrong estimated cost of the contract, the Procuring Entity may accept or not accept the proposal depending on the Procuring Entity's budget considerations.
- ii) If specifications, scope of work and/or conditions of contract are contributory to the abnormally high proposal prices, the Procuring Entity shall reject all Tenders and may re-invite for Tenders for the contract based on revised estimates, specifications, scope of work and conditions of contract.

47.2.3 If the Procuring Entity determines that the Tender Price is abnormally too high because genuine competition between Contractors is compromised (often due to collusion, corruption or other manipulations), the Procuring Entity shall reject all Tenders and shall institute or cause competent Government Agencies to institute an investigation on the cause of the compromise and copy ESPPRA, before re-inviting tenders.
