2.19 Evaluation of Tenders

Tenderers are advised that in the evaluation of tenders the EWSC is not bound to accept the lowest priced or any tender.

2.19.1 Prior to the detailed evaluation of Tenders, the Employer will determine whether each Tender is substantially responsive to the requirements of the Tender Documents. For the purpose of these processes, a substantially responsive Tender is one which conforms to all the terms, conditions and requirements of the Tender Documents without material deviation or reservation.

2.19.2 A material deviation or reservation is one which affects in any substantial way the scope, quality, or performance of the Works, or which limits in any substantial way (inconsistent with the Tender Documents) the Employer's rights or the Contractor's obligations under the Contract, and the rectification of which deviation or reservation would affect unfairly the competitive position of other tenderers presenting substantially responsive Tenders.

2.19.3 If a Tender is not substantially responsive to the requirements of the Tender Documents, it will be rejected by the Employer. The Tender shall not be made responsive by the tenderer correcting or withdrawing the non-conforming deviation or reservation.

2.19.4 The Employer will only evaluate and compare the Tenders which have been determined to be substantially responsive to the requirements of the Tender Documents. Responsive Tenders will first be checked by the Employer for any arithmetic errors in computation and summation, and any errors will be corrected as follows:

- (a) The amount entered in the Letter of Tender (as announced when Tenders were opened) may be considered acceptable as the Contract Amount without any of the corrections and adjustments described in these subparagraphs. If there is any discrepancy between amounts in figures and in words, the amount in words will take precedence.
- (b) If there is any discrepancy between this amount and the equivalent sum computed on the basis of the Schedules, the Employer may make corrections and/or adjustments (applying the principles described in these sub-paragraphs) and give notice to the tenderer, specifying each error, correction and adjustment. If the tenderer does not accept these notified corrections and adjustments, his Tender may be rejected.
- (c) If there is a substantial discrepancy between a stated amount and the correct amount calculated by multiplying the stated unit rate by the quantity, and the rate seems to have been stated in error (inconsistent with the tenderer's likely intentions), the stated unit rate shall be amended and the stated amount will be binding.
- (d) If there is any discrepancy between a stated amount and the correct amount calculated by multiplying the stated unit rate by the quantity, and either the discrepancy is not substantial or it is reasonable to assume that the stated rate is consistent with the tenderer's intentions, the stated unit rate will be binding and the stated amount shall be amended.

2.19.5 For the purpose of evaluating Tenders, the Employer will determine for each Tender the Evaluated Tender Amount as follows

- (a) making any correction for errors as described above;
- (b) making an appropriate adjustment for any acceptable variations, deviations, discounts or other alternative offers not reflected in the submitted amount or these corrections; and
- (c) making an allowance for any acceptable varied times for completion offered in alternative Tenders, the allowance being calculated at the same rate as the rate for delay damages for the Works which is stated in the Appendix to Tender.

2.19.6 The evaluation of the Tenders shall be based upon the principles outlined in the performance evaluation criteria below. Unless specifically stated, no criterion will take precedence over any other criteria, and Tender evaluation shall be based on an overall consideration.

The evaluation criteria will be as follows:

	Criteria	Comments	Yes/No
1	Company experience and track record	<ul style="list-style-type: none"> Relevant Experience of supplier not less than 3 years 	
2	Similar sized projects	<ul style="list-style-type: none"> Must have undertaken three similar sized projects (Evidence must be attached) 	
3	Evidence of Ability to deliver the contract	<ul style="list-style-type: none"> Letter from the bank guaranteeing funding of E500 000 or bank statement with a minimum of E500 000 	

Only bidders who have met all the requirements for the Technical criteria will be evaluated for the Financials.

If there is a discrepancy between the product of the unit price and quantity and the “amount” inserted in the total price for estimated quantity; the unit price will take precedence.

The Corporation does not bind itself to appoint the lowest or any contractor.

2.20 Expenses of Tender

The EWSC will not be responsible for the expenses, which may be incurred by the Tenderer in the preparation of the Tender.

2.21 Tender Price Summary

2.23 Award of Contract

The awarding of contract shall be recommended to the best evaluated tenderer, as determined by the evaluation methodology and criteria specified in the invitation document.

The contract award decision shall be taken by the appropriate approvals' authority, but the award decision does not constitute a contract. Following the contract award decision, the client will prepare a notice indicating the name of the best evaluated tenderer, the value of the proposed contract and any evaluation scores. The notice will be sent to all tenderers who submitted tenders by letter and, where appropriate, by fax or email; and will be Published on the Eswatini Public Procurement Regulatory Agency website.
